

## Leadership - Level I & II

### ***Program Snapshot***

Effective leaders are a driving force towards achieving new heights for the organisation. Leaders constantly inspire and motivate their teams by bringing out the best in themselves and in others. Our Leadership Programme is designed to help participants understand the fundamentals of leadership and motivation. This helps them to evaluate what is necessary to lead teams and how to integrate efforts for higher performance. The participating delegates will be able to lead their teams effectively by learning how to

- Develop skills in communicating, influencing and negotiating with peers, subordinates & senior managers
- Identify & inculcate leadership traits and qualities in themselves and in others
- Appreciate the importance of a leader's role in establishing organizational culture
- Understand key success factors for effective rollout of change management in dynamic environments
- Create positive influences and motivate their teams to keep up their drive to excel
- Establish a direction and chart a roadmap for the team towards ambitious goals
- Establish benchmark for self & team to inspire them towards excellence

The program will foster an awareness of their current leadership style & abilities, recognition of alternate styles, and will equip them with a tool-kit to enhance their leadership skills at workplace.

The training methodology includes micro-lab, concept sharing, group discussions, breakout group activities, exercises, practice sessions, and case studies followed by detailed evaluation & feedback.
